Healthcare Facilities

HOWARD INDUSTRIES
PATIENT FOCUSED SIGNAGE

Improve Communication.
Reduce Medical Errors.

Our Patient Focused signage, with custom communicative icons, helps provide superior patient care by enhancing hospital staff communication and reducing safety risks. We offer ADA compliant patient room identification signage that unites vital patient information as well as Isolation and Precaution Inserts. These signs are perfect for hospital patient rooms, hospital exam rooms, resident rooms in critical care facilities and additional healthcare locations.

Like our other interior signage lines, our Patient Focused Signage can be customized to any healthcare facility's requirements and preferences. Choose from our extruded aluminum frame or acrylic Patient Focused Signage options, both lines offer multiple size, profile and tab color options.

Our patient room signs feature informative pull tabs that house easily changeable, printed paper insert icon graphics that are protected by a non-glare lens. The tabs are available in 12 different colors and can be configured to accommodate wall space availability.

Healthcare facilities can choose from our standard medical icon library, or provide their own custom communicative medical symbols/icons to be printed on the paper inserts. Our healthcare signage experts can help assist you in designing the ideal Patient Focused signage system that will perform best for your specific healthcare facility requirements.

Patient Focused Signage, in conjunction with ADA compliant Grade 2 Braille and tactile copy, can double as a patient room identification sign and an informative tool for the healthcare staff. Placed inside the patient's room, our Patient Focused Signs can be utilized by healthcare staff members to convey vital patient information to one another, the patient and/or visitors. Our paper insert capabilities make updating sign information fast and easy. With so many design and substrate options, our Patient Focused Signage possibilities are infinite.

Patient Focused Signage Features:

ADA Compliancy
both our HID aluminum frame system and custom acrylic signage have raised tactile copy and Grade 2 Braille capabilities

Variety of Styles
choose from our signature HID aluminum frame paper insert signage system or acrylic signage options

Customizable Dividers
consolidate certain regulatory messages using our rubber dividers

Complementary Decor Options
with multiple color and substrate options available, we can customize the look of any interior sign to accompany any interior environment

Multiple Configurations
select your pull tab size (standard or mini), number of desired tabs and color from our standard size and configuration chart

Full Medical Icon Library
choose medical icons from our extensive list of standards or have us design custom icons to suit your medical facility's specific needs

Accessory Options
add additional functionality to your Patient Focused Signage by incorporating magnet, dry erase, and/or cork board material
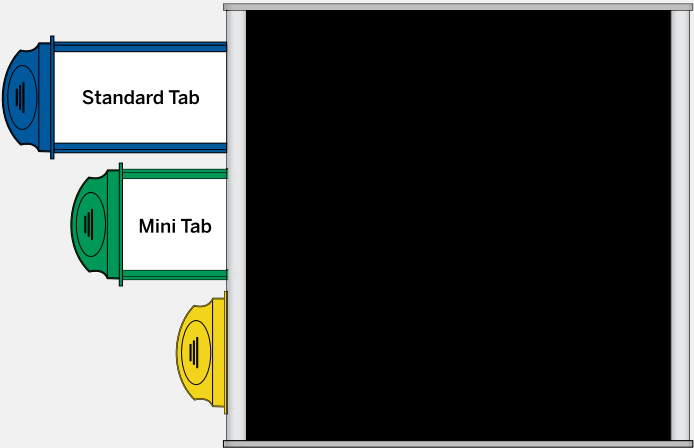

Tabs That Fit Your Message

First choose your tab size and color for from the chart below.

The standard tab offers a rectangular visual opening (vo) easily allowing for messages that incorporate both images/icons and copy.

The mini tab provides a square vo perfect for quick-reference icons and other snap-shot messages.
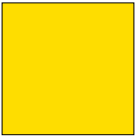

Standard 2.125" H x 5.25" W
Paper Insert = 2" H x 3.5" W
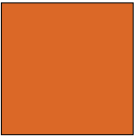

Mini 2.125" H x 4" W
Paper Insert = 2" H x 2" W

Standard Tab

Mini Tab

Paper Insert Icon Messages

Medical icon messages update with ease using removable lens and paper insert system.

Do Not Disturb

Do Not Disturb

Securing Tabs
Our tabs snap firmly into place when open to avoid accidental hallway traffic interference.

HOWARD INDUSTRIES

Important information to take into consideration when choosing your Patient Focused Signage

Minimum Wall Clearance

When deciding on the right Patient Focused Signage units for your facility, be certain to take into consideration the alloted wall space available for signage placement. You may encounter instances where wall space is limited and will need to adjust accordingly.

Your sales representative can assist you with this process; if you have questions, simply ask, we are here to help!
